

## **PSSA Emergency Procedures**

1. Call 911, do this first.
2. Answer the operators questions and provide the following address:  
31500 S.E. 408th Street  
Enumclaw, Washington 98022
3. If the Bergseth's are home, have them call 911 too, this will tie into the E911 system.
4. If there are enough people, have someone go to the intersection of SE 416th and the Veazie-Cumberland Rd to direct the aid unit to the field.
5. If there are gliders in the air, try to have one of the runways clear for landing. If possible, keep any rescue vehicles clear of the runway. Advise any pilots in the air of the situation on the ground especially if runways are obstructed. The pilots must determine which off-site landing options are suitable if they cannot remain airborne.
